FREE Residential Landscape Classes

If you're interested in learning more effective and efficient ways to design and maintain your landscaping, the District will be offering free residential landscape and irrigation classes featuring the following four topics:

Saturday, September 30, 2006

Landscaping Design Basics

Saturday, October 21, 2006

California Friendly Plants

Saturday, November 4, 2006

Efficient Irrigation Systems

Saturday, November 18, 2006

Soils, Fertilizers, and Watering

Each class will begin at 8:30 a.m. on their respective dates and last approximately 3 to 4 hours. The classes are designed to assist homeowners with the development and maintenance of a low-water using landscape plan that works best for each participant. Sample landscape plans and photos will be reviewed and plan developments discussed.

Class space is limited, so please call **(909) 595-7554, ext. 360**, as soon as possible if you are interested. When calling, leave your name, address, telephone number and the class(es) for which you wish to register. A District representative will call you back to confirm your attendance.
