

SAVE WATER, ENERGY, & MONEY NOW!

Visit www.wvwd.com for money saving ideas that will reduce water use in your home. From the District's website you can take a tour of a Water Saver Home that features current information and resources to help you be water efficient in every area of your home.

Go online **now** and *click on* to discover how to:

-  Find the best ways to save
-  Read your water meter
-  Fix leaks & maintain appliances
-  Install new water efficient appliances
-  Design & water your outdoor landscape
-  Learn about new Evapotranspiration (ET) irrigation controllers
-  Take drought actions

Water efficiency helps both the economy and the environment. Every drop counts, as it costs you money and requires energy to bring water to your home from distant sources!
