FOR IMMEDIATE RELEASE

WVWD BOOTH SHOWCASES SERVICES

As a proud member of the business community, the Walnut Valley Water District staffed a booth at the Walnut Business Expo presented by the Walnut Chamber of Commerce Saturday, Aug. 28, at Mt. San Antonio College. Dr. Allen Wu, member of the District's Board of Directors, and members of the District's staff were present at the booth as customers came by and picked up pamphlets and brochures on service, water conservation, and other informational items.

"We're always looking for ways to reach out to the community and provide information about our services and answer any questions," said Director Wu. "This event gives us the opportunity to be more accessible to the community." "Water conservation and water quality are the District's main goals," said Wu, and teaching the younger generation, especially, about conservation is important.

To that end, the District gives away fun items such as pens, yo-yos, visors, coloring books, key chains, and magic sponges designed to promote the District's conservation efforts by attracting and informing youngsters about conserving water. Brothers Wesley, 5, and Brandon, 3, happily gathered many items in a bag supplied by the District as their mom, Josephine Ting, looked on.

Another point of interest at the District's booth was the Sample Residential Water Service display, which shows consumers how water reaches their homes through a diagram of actual pipes and parts, ending with actual water emanating from a faucet into a bucket.
