FOR IMMEDIATE RELEASE

WVWD Giveaway Saves Water and Money

In its continuing effort to provide customers high quality service, the Walnut Valley Water District hosted an ultra-low flush toilet giveaway on Saturday, May 7.

Held in the parking lot of its headquarters facility, the event allowed customers to replace conventional toilets with ultra-low flush models meant to save significantly more water per flush. Ultra-low flush toilets are designed to use only 1.6 gallons of water per flush as opposed to older models, which can use over 5 gallons.

Installation of these toilets will not only conserve water, but allow customers to enjoy substantial dollar savings on their water bills as well.

Students from Diamond Bar High School, Diamond Ranch High School, Walnut High School, and Rowland High School donated much of their time to help with checking names of pre-registered customers and loading 635 toilets into vehicles.

The water conservation/fundraising event will help raise money for the schools' programs, including marching band, Future Homemaker's of America, and Junior ROTC. Each school will receive \$5 for every recycled toilet returned to the District.
